

6516206346.txt

I am a subscriber of XM Satellite Radio and enjoy listening, on my own timeframe, to music, news, traffic and weather channels. I do not have to sit through mindless chit chat or commercials for this valuable information, but can obtain it exactly when I want it. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I desire and deserve.
